

CALL FOR PROPOSAL TO CONDUCT ASSESSMENT ON WASTE MANAGEMENT

United Mission to Nepal (UMN) has been serving the people of Nepal since 1954. UMN is implementing **Climate Change Impact Mitigation and Adaptation for Environment Sustainability (CLIMATES)** project in **Doti** and **Bajhang** districts. Waste management is one of the areas of the project intervention. In this context, we want to carry out an assessment to understand the dynamics of waste and seek an effective solution for managing waste in the local context. Based on the findings and insights of the assessment, we want to better design our working approach and intervention in locally managing waste.

All interested and experienced consulting firms/individuals who meet the requirements and qualifications are encouraged to apply. Details of the assessment and requirements have been provided in Terms of Reference (ToR), which can be accessed at www.umn.org.np/tor-wastemanagement. The application must be submitted to UMN latest by **19 March 2023**.

Short-listed candidates will be invited to an assessment process. We especially encourage applications from women and marginalised groups.

Please submit your applications at: consultants.meal@umn.org.np
